Mahatma Education Society`s

PILLAI GROUP OF INSTITUTIONS

ANNUAL SPORTS- REPORT 2024-25

"The difference between the impossible & the possible lies in determination"

The Determination leads..... to the podium

Grass route development of sports play a vital role for India`s Olympic aspirations. This is evident that after implementation of Khelo India sports development programme there are a quite lot of hidden talents has been identifies, trained and performed various international platforms of sports. But this initiatives are not enough to tap the hidden talents of a country like India. There is a requirement of more private groups to come-out and support federal governments. Ether in the form of CSR or in the form of Private Public partnership. Because the talent pool is vast and there is enough scope to dig.

By focusing on building a strong foundation, India can identify and nature young talents, providing them with the necessary infrastructure, coaching and resources dream big. This approach will definitely enable athletes and sports enthusiasts to develop their skill systematically, increasing their chances of success at the highest levels. More over grassroots development promotes a culture of sports, encouraging participation and fostering a love for physical activity among the youth.

A well -structured grass root program can help India to overcome its current lack of talent pool and challenges in sports development. By investing in local infra structure, training coaches, and creating opportunities for athletes to compete and grow, India can produce world class athletes capable of competing and wining Olympics. This approach has proven successful in many countries, and with careful planning and decisive execution, India can replicate this success, ultimately achieving Olympic glory and inspiring future generation of athletes.

White supporting the govt. Initiative, Pillai group of institutions runs India government`s Small Khelo India centers for athletics & Volleyball successfully with producing many national stars. While recognizing Mahatma Education Society continuous effort in developing an eco system for sports, Govt. Of India, Ministry of Youth Affairs and Sports has identified Mahatma Education Society`s Pillai HOC International School as Talent Assessment Centre of Konkan region(MH) for Khelo India Rising Talent Identification program(KIRTI). This come as a feather on the cap for Mahatma Education Society.

Beyond this its also runs various sports developing grass route training programs during after school hours in most of its schools under the banner of its registered clubs. Mahatma Education Society also conduct its own Inter institutions sports championships as many as 12 sports disciplines. We welcome the new academic year 2025-26 with great enthusiasm and determined to do better, train better and glory for Mahatma Education Society and Nation.

Padmakshan Padmanabhan
Director of Sports
